COURSEWORK/ SKILLS

- Frontend - HTML, CSS, JavaScript, React Js
- CSS Frameworks - BOOTSTRAP
- Databases - SQL, MySQL ,Oracle
- Version Control - GITHUB, GIT

LANGUAGES

- Tamil
- English

PROJECTS

PERSONAL PORTFOLIO (WEB APPLICATION)

Developed a responsive personal portfolio website using React, HTML, CSS, and JavaScript to showcase projects and technical skills. Implemented modem UI design principles, smooth animations, and mobile-friendly layouts to enhance user expense.

TASK MANAGEMENT DASHBOARD (WEB APPLICATION)

Designed and developed a task management web dashboard using HTML, CSS, and JavaScript with dynamic task rendering. Implemented task creation, filtering, and status tracking using JavaScript-based state handling.
Ensured responsive design and smooth user interactions across multiple screen sizes.

CAFE ORDERING (WEB APPLICATION)

Designed and developed a responsive cafe ordering application using React, HTML, CSS, and JavaScript.
Implemented cart functionality, menu filtering, and dynamic price calculation for improved user experience.
Ensured cross-device compatibility with modem UI design practices.

EXPENSE TRACKER DASHBOARD (WEB APPLICATION)

Designed and developed a responsive expense tracking web application using React, HTML, CSS, and JavaScript with real-time financial data visualization. Implemented income and expense management, category-based filtering, automated balance calculation, and interactive chart components.

FINAL YEAR PROJECT - STUDENT PERFORMANCE ANALYSIS USING MACHINE LEARNING

Implemented CNN and Naive Bayes algorithms to analyze and classify student performance patterns. Performed basic data processing and result evaluation to support performance prediction insights.
